

ANKITHA.H

Trainee Software Developer

WHAT AM I LOOKING FOR?

An opportunity where I can use my technical knowledge along with my creativity to create amazing digital experiences for everyone!

PROFESSIONAL EXPERIENCE

Software Developer @ Tetherfi

Oct 2020 -Present,Mangalore

Joined here as a Trainee Software Developer.

- Working on Tetherfi Omni Channel application done using React Native.
- Responsible for enhancement of UI like chat thread, contactlist , chat wallpaper and other functionalities.

PERSONAL UI PROJECTS

Leave Portal Project

(07-3-2021- Ongoing)

- Designing an internal tool to apply leaves and download monthly payslips. Worked on complete end to end design from scratch.
- Used Figma for both low and high fidelity.

PROJECTS

DBMS Mini Project

Built an Online Shopping Management Project using Java as Front end and MySQL as backend.

Text Sentiment Analysis using Deep Learning

Here we used an enhanced approach i.e CRNN for text classification as positive and negative text.
